

OPTION B

Upon completion of your fundraiser send in completed master tally sheet, within 1 – 2 weeks receive bulk packaged product at your organization, sort orders accordingly and deliver to your customers or have them pick their orders up.

This option allows your group to retain the most profit. This option is most suitable if you have an indoor climate controlled area where you can sort your orders and have the capable manpower to do so. Groups choosing this option are also encouraged to run a web based "Online Storefront" capturing additional revenue for their groups.
